

BAMBI POWERFILL™

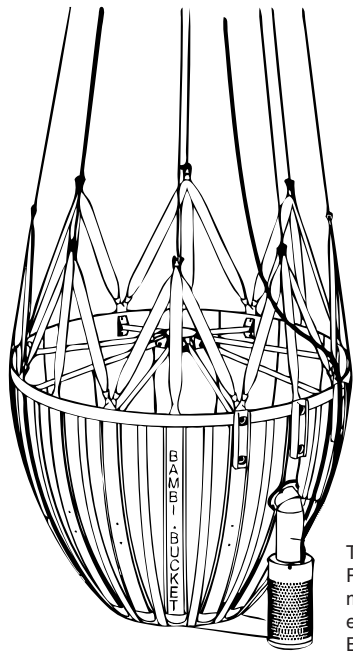

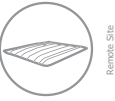

POWERED SHALLOW-FILL CAPABILITY FOR THE BAMBI

Add rapid shallow-fill capability to your Bambi Bucket®. Fight fires faster, more efficiently and at a lower cost – use the Bambi Powerfill™ to fill your Bambi Bucket® to maximum capacity from almost any water source. Just a one-foot (30 cm) depth of water is all that's required for the Bambi Powerfill™ to replenish your Bambi Bucket®, letting you fill up quickly from tanks, streams or ponds with minimal debris uptake. No need to waste fuel and flight time searching for suitable water sources – simply use the Bambi Powerfill™.

TOP FEATURES

- Retrofittable to existing Bambi Bucket.
- Increases operational efficiencies as practically any water source can now be used.
- With the flange kit installed, the Powerfill™ pump can be bolted on for action, or removed in the field by one person.

The Bambi Powerfill™ is easily mounted on the exterior of the Bambi Bucket®.

RETROFITTABLE TO BAMBI BUCKET® MODELS

BB 2024 – BB 4453

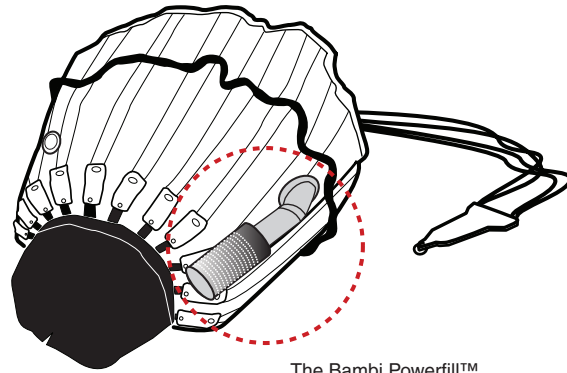

BAMBI BUCKET® SPECIFICATIONS

MODEL	CURRENT DRAW	FILL TIME	BUCKET GROSS WEIGHT
	amps	seconds	lb (kg)
2024	45	30	2175 (989)
2226	45	33	2345 (1066)
2732	45	45	2893 (1315)

FEATURES

- Large intake screen enables a fast fill in only one foot (30 cm) of water with minimal debris uptake.
- Capable of using almost all the water in helicopter dip tanks, leaving only 7 - 8 inches (18 - 20 cm) of water behind.
- Requires 45 amps power to operate.
- The conventional dipping method may still be used with the Powerfill™ installed.

COMPATIBLE WITH

- Fireflex Flextank (Pumpkin Tank)
- Fireflex Heliwell
- Fireflex Low-Profile Tank
- Fireflex Oasis Frame Tank
